Fall 2017 Update: STAAR Alternate 2

OCTOBER 13, 2017
1:30PM-3:30 PM (CST)
TETN EVENT#: 4851
Fall 2017 Update: STAAR Alternate 2

• These slides have been prepared by the Student Assessment Division of the Texas Education Agency.

• If a slide is changed for local use, please remove the TEA footer at the bottom of the slide.

• This training in no way takes the place of reviewing required manuals and additional information on the TEA website.
Topics:

- Key Dates
- New Features of Alt 2
- Revised Resources
- ESSA Waiver
- 2018-2019 Participation Requirements
- Alternate English Language Proficiency Assessment
- Educator Committee
STAAR Alternate 2 is an assessment based on alternate academic achievement standards and is designed for students with significant cognitive disabilities receiving special education services. STAAR Alternate 2 is administered in the same grades/subjects and courses as the STAAR assessments.

STAAR ALTERNATE 2
STAAR ALTERNATE 2 2017-2018

KEY DATES

- **NEW** Enrollment Collection:
  Oct. 23 – Nov. 10, 2017
- Last Date for Test Administrator Training:
  March 16, 2018
- Preview Window: March 19-30, 2018
- Assessment Window: April 2-20, 2018
- Verification Window: April 23 & 24, 2018
- All key STAAR Alternate 2 dates are referenced in the Test Administrator Manual (TAM) & District and Campus Coordinator Manual (DCCM)
STAAR Alternate 2 Verification Window

The verification window for STAAR Alternate 2 is April 23 - April 24, 2018. The window closes at 5 p.m. (CST) on April 24. The verification window is intended to ensure the accuracy and completeness of all data submitted in the Assessment Management System and the collection of secure documents.

- If during the verification process it is realized that a student has not been tested, then the student must be tested during the verification window.
- If during the verification process it is realized that a student’s data has been omitted, the data should be entered during the verification window.
Students Who Enroll AFTER April 2, 2017

Students who transfer/move to a new district after the first day of the STAAR Alternate 2 testing window do not have to be tested.

Students who transfer within the same district after the first day of the STAAR Alternate 2 testing window still must be tested by the district where the student is enrolled.
NEW TEST FEATURES
COLOR STUDENT BOOKLETS

- Spring 2018: Introduced for the first time
- 2018 will have limited color images
- Exit survey will be utilized to gauge test administrator satisfaction with color format
- TEA will analyze the impact of new format on student performance
LARGE PRINT STUDENT BOOKLETS

- Spring 2018: Introduced for the first time
- Ordered through the enrollment collection process
- Districts must enter a number to receive large print tests. The count in the Assessment Management System will default to zero
- Number of large print booklets ordered should be based on students who require an accommodation of enlarged text or images
STAAR Alternate 2 Image Card Sets

- Spring 2018: Introduced for the first time
- One card set per standard size student booklet
- Perforated cards: 4 cards on a 8 ½ X 11 page
- Cards contain the same images that appear in the student test booklet
- Reduces burden on teacher for photocopying and preparation of images
- Photocopying policy has not changed
STAAR Alternate 2 Image Card Sets

- Test administrators are NOT required to use Image Card sets
- Test administrators should utilize image cards in the same way they previously accommodated the student booklet page (EXAMPLES)
  - by photocopying and then cutting apart answer choices in order to present answer choices one at a time, OR
  - by photocopying and then cutting out an image to pair with text, OR
  - other accommodations that required photocopying and then making a “card” to assist with test administration.
- Image cards will have number stamp on the back to correspond with test items
STAAR Alternate 2 Exit Survey

- Found in the Assessment Management System
- Completed upon submission of all student responses
- Final submit button will prompt the survey link
- Survey results will guide the test features of future STAAR Alternate 2 development
Materials to be provided to STAAR Alternate 2 test administrators **per student** include:

- one student booklet
- one image card set
- one scoring document*
- one secure STAAR Alternate 2 Test Administrator manual for each grade, subject, or course tested

Return **used and unused**:

- secure STAAR Alternate 2 Test Administrator manuals
- student booklets
- scoring documents
- complete image card sets
- photocopies of secure test materials

*scoring document may be found in back of TAM or online through “Resources” tab in Assessment Management System
Translated Student Materials

- New field
- Test Details screen in the Assessment Management System (above the score code and accommodation fields)
- Field collects data on the number of STAAR Alternate 2 assessments being translated into a language other than English
- The default is “NO”
- New field will also be added to STAAR Alternate 2 Scoring Document so that it matches new field in online form
Revised Medical Exception Form

STAAR ALTERNATE 2 2017-2018

MEDICAL EXCEPTION FORM

Revised form:

- No longer “chronic illness”
- Revised version: “terminal or degenerative illness”
Revised Medical Exception Form

Revised manual:

- No longer non-academic homebound services due to medical issues and does not receive academic instruction.
- Revised form: “unable to receive sufficient or consistent homebound services due to medical issues.”
Revisions to Vertical Alignment and Curriculum Framework

Math grade 4, RC3, 4.7, page 22:
Added PK skill V.E.1

Classification and patterns skills
  • sort objects that are the same and different into groups and use language to describe how the groups are similar and different
Math grade 8, RC3, 8.8, page 25-26:

Measuring Length, Area, Volume, and Weight/Mass

• compare two objects with a common measurable attribute to see which object has more of/less of the attribute and describe the difference

• give an example of a measurable attribute of a given object, including length, capacity, and weight

Added PK skill V.E.1

Classification and patterns skills

• sort objects that are the same and different into groups and use language to describe how the groups are similar and different
Algebra RC4, A.6, page 26; RC4 A.7, page 29; RC4, A.8, page 34; and RC5, A.9, page 39:

Added 6.7A

*Determining and Simplifying Numeric and Algebraic Expressions*

- generate equivalent numerical expressions using order of operations, including whole number exponents and prime factorization
STAAR Alternate 2 Student Report Card

- Formerly known as “Confidential Student Report”
- The individual student report card will show performance data for each student on the subject-area tests
- Resources will be included for parents of students with significant cognitive disabilities
- More specific details will be sent out through email communication in the Spring.
STAAR Alternate 2 assessments are administered in the subject/course in which the student is enrolled.

- Above grade testing is not allowed on STAAR Alternate 2 (for example, students who are enrolled in 8th grade taking STAAR Alternate 2 may not be assessed in Algebra I in 8th grade)

- Students who meet eligibility for STAAR Alternate 2 would be not have an instructional level that would allow for above grade instruction.

*(Change of language will be reflected in 18-19 Participation Requirements)*
Web postings

- STAAR Alternate 2 Educator Guide
- Revised Medical Exception Eligibility Requirements (English & Spanish)
- Instructional Terms Lists
- Essence Statements: Oct. 20
- STAAR Alternate 2 Test Blueprints: Oct. 20
Every Student Succeeds Act
Previous 1% Rule

No Child Left Behind (NCLB) stated that all students in public schools must be included in the statewide accountability system and defined alternate assessments as appropriate for the most significantly cognitively disabled (MSCD) students.

NCLB put parameters around the definition and on the number of MSCD students who can be counted as proficient in a state’s adequate yearly progress (AYP) calculations.
Reauthorization of ESEA

- Elementary and Secondary Education Act of 1965 (ESEA) amended
- enacted December 2015
- Every Student Succeeds Act (ESSA):

  In an effort to make assessments ... inclusive of all students, the ESSA imposed a cap to limit, to 1.0 percent of the total number of students who are assessed in a State in each assessed subject, the number of students with the most significant cognitive disabilities whose performance may be assessed with an alternate assessment aligned with alternate academic achievement standards.
Reauthorization of ESEA

Districts should only have a very few (if any) students who have been identified as eligible for the No Authentic Academic Response (NAAR) and Medical Exception (ME) waiver from STAAR Alternate 2.

States must show that at least 95% of all students and 95% of students with disabilities participated in the assessments in the subject area for which a state is asking to be waived of the 1% cap.

Districts should pay close adherence to eligibility requirements for NAAR and ME.
§ 200.6(c) **Alternate Assessments Aligned with Alternate Academic Achievement Standards (AA-AAAS)**

**Revised 1% Rule:** The total number of students assessed using AA-AAAS may not exceed 1.0% of the total number of students in the State who are assessed in a subject.

Currently in Texas: The *average* number of students assessed using AA-AAAS is around 1.24% of the total number of students in the State who are assessed in a subject.
Waiver Request

As a result, Texas is seeking a waiver from this requirement pursuant to section 8401(b) of the ESEA, as amended by the ESSA. Specifically, Texas is requesting a limited waiver of section 1111(b)(2)(D)(i)(I), of the ESEA, as amended by the ESSA, so that the state's assessment system may have slightly more than 1.0 percent of students taking the AA-AAAS during the 2017–2018 school year.
A state may not prohibit a district from assessing more than 1.0 percent of its assessed students with an AA-AAAS.

In order to complete the waiver request, LEAs will be required to submit information justifying the need of the LEA to assess more than 1.0% of its assessed students with STAAR Alternate 2.

LEAs will provide assurances that each LEA that will assess more than 1.0% of students using an AA-AAAS has followed all State guidelines and that each LEA will address any subgroup disproportionality in the percentage of students taking an AA-AAAS.

States will make the information submitted by an LEA publicly available.
How to submit:

- **10/20/2017**: LEAs will receive a letter of notification indicating that based on 2016-2017 data the LEA assessed more than 1.0 percent of its assessed students with STAAR Alternate 2.

- Letter will be sent to the Superintendent of the school district or the Chief Administrative Official of the charter school and copied to DTCs.

- **11/17/2017**: Districts complete waiver document and submit to TEA signed and dated by the Superintendent of the school district or the Chief Administrative Official of the charter school.

- Notification letter will list the unique email address to be used for submission of waiver document.
2018-2019 REVISED Participation Requirements

- As part of the waiver process, TEA will be updating its participation guidelines for STAAR Alternate 2.
- Developed based on input from STAAR Alternate 2 Advisory Council, TEA Special Populations division, Special Education experts in the field
- Effective upon release (December, 2017) to be used for Spring, 2019 ARD assessment decisions
- Training for the revised participation requirements will be provided to LEAs
2018-2019 Flow Chart to Accompany Participation Requirements

- Developed based on input from STAAR Alternate 2 Advisory Council, TEA Special Populations division, Special Education experts in the field
- Effective upon release (December, 2017) to be used for Spring, 2019 ARD assessment decisions
- Flow chart is a simple graphic to help understand the new participation requirements
- Flow chart intended to help parents understand eligibility for STAAR Alternate 2
Alternate English Language Proficiency Assessment
§ 200.6(h) ENGLISH LANGUAGE PROFICIENCY (ELP) TESTS

If an English learner (EL) cannot be assessed in one or more domains due to a disability, and there is no appropriate accommodation, a State must assess the student’s English language proficiency based on the domains that can be assessed.

(e.g., a non-verbal English learner who because of an identified disability cannot take the speaking portion of the assessment)

A State must provide an alternate assessment for English learners with significant cognitive disabilities who cannot participate in the ELP test even with appropriate accommodations.
Each State must
- develop a uniform, valid, and reliable statewide assessment of English language proficiency, including reading, writing, speaking, and listening skills; and
- require each LEA to use such assessment to assess annually the English language proficiency, including reading, writing, speaking, and listening skills, of all English learners in kindergarten through grade 12 in schools served by the LEA.
Each State’s language proficiency assessment must

- be aligned with the State’s English language proficiency standards and
- provide coherent and timely information about each student’s attainment of the State’s English language proficiency standards
Texas is creating a holistic inventory to assess English language proficiency

- to satisfy the Alternate ELP assessment requirement for students with the most significant cognitive disabilities (SWMSCD)
- to reduce exemptions from specific language domains on the general TELPAS
**Why a Holistic Inventory?**

- Sensitive to the needs of SWMCD
  - More accessible to students who have difficulty interacting with test items even with appropriate modifications and accommodations applied.

- Limit additional burden on the field
  - HB 5, 83rd Legislative Session, 2013

- Common form of evaluation used by special educators
  - Speech language inventories, adaptive behavior inventories, etc.
Holistic Inventory

The inventory requires test administrators, based on their knowledge of a student’s English language skills over a period of time

• to make holistic judgments,

• across all four domains of English language proficiency (listening, speaking, reading, writing), and

• using alternate ELP-aligned rubric.
## Projected Participants

### Grades K-1
- Since all ELs will take the same K-1 holistically-rated assessment for all 4 language domains, no eligibility determination is needed.

### Grades 2-12
- **Grade 2:** Participation requirements will be created (similar to STAAR Alternate 2) and ARD/LPAC committees will be required to make an assessment determination for TELPAS.
- **Grades 3-12:** Participation requirements will be ELs who are eligible to take STAAR Alternate 2 will take the Alternate TELPAS.

### 2016 data:
- Approximately 4,590 students identified as limited English Proficient (LEP) took STAAR Alternate 2 in grades 3-EOC.
- A very small number of students who meet the requirements of No Authentic Academic Response (NAAR) or Medical Exceptions (ME) will not participate in either TELPAS (K-1) or the Alternate TELPAS (2-12).

Alternate eligibility will be a new requirement for ARD/LPAC committees to decide prior to Spring 2019 of a student’s 2nd grade year.
Reason for alternate proficiency level descriptors (PLDs)?

- Due to a significant cognitive disability, the current advanced or advanced high levels would be unattainable for SWMSCD because general TELPAS PLDs are aligned with grade-level expectations.
- In order to provide meaningful data for teachers, the alternate PLDs will be a more meaningful measurement of English language proficiency for SWMSCD.
- Five English language proficiency levels
- Spring/Summer educator groups will provide further feedback on alternate PLDs
Cognitive Lab – Late Spring 2018

Purpose:

- Means of measuring TEST ADMINISTORS’ mental processes through the use of a think aloud protocol
- Flexible procedure that can be catered to the specific situation and activity for unique student populations
- Gather data to inform development of observation criteria
Cognitive Lab – Late Spring 2018

Procedure:

- Robust participation by LEAs will help to combat small sample size of students
- LEAs volunteer test administrators who are familiar with ELs who are also assessed with STAAR Alternate 2
- Test administrators conduct a sample holistic inventory with a reduced number of indicators
- TEA/Pearson staff conduct interview sessions with test administrators
Intended Outcomes

- Real-time observation of student interactions with item types and the accommodations that are required
- Collection of valuable educator knowledge of unique needs of student population to inform the test content and procedures
- A cadre of test administrators who will help guide the alternate language proficiency assessment development process required for ELs with significant cognitive disabilities.
- Results that inform implications for future testing of ELs with significant cognitive disabilities
- Protocol that will inform assessment and instruction of ELs with significant cognitive disabilities
How to Apply?

LEAs will receive a letter from TEA soliciting districts to participate in the cognitive lab:

- including the proposed calendar for completing cognitive lab activities and
- describing the procedures for districts who will volunteer to participate.

Thank you for your participation in this exciting opportunity to inform Texas’ first language proficiency assessment created specifically for ELs with significant cognitive disabilities!
Educator Committees

We need you to nominate qualified educators from your school or district, to serve on statewide committees who will review test questions or participate in other test development activities related to the state assessments.

A great way to inform test development for students with significant cognitive disabilities!
