Libraries (From: <http://www.tsl.state.tx.us/cgi-bin/ld/pubs/pls/2003/plsresults.php>)

Libraries are an important resource in your community. They loan books, movies, and CDs, and stock many newspapers and magazines. Libraries typically provide free access to computers and the Internet, and many offer story-times and other children's and community programs. Libraries are quiet places for students to research and study. Many have community message boards where you can learn about other resources in your area. Libraries are usually air-conditioned and are a great place to spend a few hours beating the summer heat.

Parks

Parks provide free space for children to run, play, and burn off extra energy. They are a low-cost alternative to movie theaters and arcades, and they are generally safer than playing in the street or unattended areas. Pack a snack or picnic lunch and spend the day. Many parks have bathroom facilities, covered or shady areas, and picnic tables or benches.
