* Students taking their first STAAR EOC in the years listed will be held to the performance standards in this column for every assessment in that content area.

** State Law now requires students graduating in 2015 or later to earn a Level III rating on English III Reading and Writing and Algebra II to qualify for the state's Distinguished Achievement Program high school diploma.

† Level III standards will not be phased in for English I and II reading and writing, Algebra I, Geometry, Biology, Chemistry, Physics, World Geography, World History and U.S. History. Students can achieve Level III proficiency but results will not be used for accountability.
