Restorative Discipline
Campus Team Training
and Coaching Support

About the program.

Our campus team training and coaching support program is designed for campuses that want a deep dive into Restorative Discipline. We offer on-site and team training days to build a restorative program on your campus from the ground up. The coaching support can include support for teachers and staff, campus implementation, and school-wide staff development.

Days 1-2  June 19th & 20th

Days 1 and 2 focus on understanding what Restorative Discipline is and why it’s important. We then develop your campus “why” and create a vision, mission, and plan for implementation, including how to get staff support. From there we move onto how to implement restorative discipline in the classroom through language, questions, conversations, and circles.

Day 3 - Fall 2018

Day 3 focuses on evaluating your restorative discipline kick-off. We’ll share out what’s been working, not working, and any aha moments you’ve been having. We’ll then move onto responsive circles, understanding the 9 affects, the compass of shame, and the social discipline window.

We’ll shift to talking about your campus’ discipline matrix, and teach you how to set up and conduct restorative conferences.

Day 4 - Spring 2019

On the final day of team training, we’ll discuss Tier 2 restorative circles, embedding SEL into your process, reintegration circles, how to use Restorative Discipline with special needs students, assessing your process, and the next steps for your campus.

Five days of on-site coaching*

Four days of team training

$4500 per campus

Train 8-10 members of your campus

*for out of region campuses, there will only be 3 days of on-site coaching.
